

Special Education Intake Guide

District Referrals

Districts can access St. Lawrence-Lewis BOCES program descriptions at www.sllboces.org. Included with each description are the learner characteristics of the students for whom the program was designed and the supports these students will receive in the program. The purpose of designing programs based on students' learner characteristics rather than a ratio or disability is to ensure that the most appropriate supports and services are incorporated for specific and observable learner characteristics.

When making referrals, school districts are asked to submit sufficient information for BOCES to determine if the student meets the learner characteristics of a specific program. This will ensure the student is matched with the appropriate program and supports.

Parental Communication

An assurance from the school district that the parents/guardians are in support of the referral to SLL BOCES programs is needed.

We will contact parents/guardians, if appropriate to share confidential information when this assurance has been communicated..

Timelines for Referrals and Placement Decisions

We recognize that districts and families are eager to find an appropriate placement for students who are referred to us. Therefore, we commit to completing our intake process as quickly and thoroughly as possible and communicating our decision as soon as possible to the parents/guardians and to the school district.

To ensure timeliness, it is critical that school districts provide the required information initially to avoid requests for further documentation. The chart on Page 5 lists the information required at the time of referral, which must be provided before a student begins.

THE ANTICIPATED TIMELINE FOR THE REFERRAL PROCESS

Initial referral (complete when all required information is received by St. Lawrence-Lewis BOCES.)

The BOCES principal reviews the file with staff and, if the student's learner characteristics match the program, an intake is scheduled. The initial intake meeting is scheduled within 10 days.

If the student is eligible for placement, the BOCES principal informs the BOCES Special Education Director, and a start date is determined based upon the CSE meeting date. All information required prior to the start date is requested from the school district.

The CSE meeting to review and revise the Individualized Education Program (IEP) is scheduled for 30 days after the start date.

The student begins in the program and staff review and revise the IEP.

The IEP is reviewed and, if necessary, revised at the CSE meeting held within 30 days of the student's start in the BOCES program.

Information for Referrals

The following chart identifies the information needed for the initial referral and the information required prior to the student's start in a BOCES program. Please note that not all data is required for every student.

Please contact the BOCES Special Education Division at 315-386-4504, ext. 10132, with any questions. We will provide assistance in helping to make sure that referrals are complete and the process is timely.
